

## CEMENT-BASED POWDER GLUE

### CHARACTERISTICS

TILEFIX is a powder adhesive made up of grey and white cements, ideal for small size ceramic tiles, 100% Made in Italy. Mixed with water, TileFix makes up a glossy and plastic paste with good adhesive properties for all indoor materials and all substrates normally used in construction as long as they are non-deformable and with absorption  $\geq 3\%$ .

**POT LIFE**  
3 hours

**COLOUR**  
white/grey

**TYPE**  
powder

**PACKAGING**  
20 kg bags

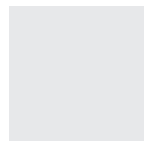

### APPLICATION

The substrates must be solid, free from oil, grease and dust. Mix TileFix with approximately 24% of water, until you obtain a homogeneous, bright and plastic adhesive. Leave it to rest for 5 minutes and then re-mix for a while. Now the adhesive is ready, it must be used within 3 hours.
